## 2020 RESERVE CABERNET SAUVIGNON

### TASTING NOTES

Black cherries, raspberries, sweet licorice and deep dark chocolatey happiness. The tannins are smooth and alluring, intertwining perfectly with juicy red fruits and opulent weight and texture on the finish.

### FOOD PAIRINGS

Ostrich, sweet spicy curries, and indulging in a chocolate pot de creme at midnight.

### VITICULTURE

Grown on our warmest section of our Lusitano vineyard, this small block of Cabernet Sauvignon is farmed with the utmost attention. Steep slopes and south facing aspects ensure the vines have the best natural growing conditions for perfectly ripe fruit, and keeping the crop levels low results in super concentrated flavours.

### WINEMAKING

A new and exciting wine for Liquidity, showcasing the best of our small batch Okanagan Falls Cabernet Sauvignon. The fruit was hand picked, and fermented in a small open vessel. After aging in French oak barrels for 16 months, each barrel was tasted and the final blend carefully put together before bottling unfiltered and unfined in March 2022.
